

Little GIANT®

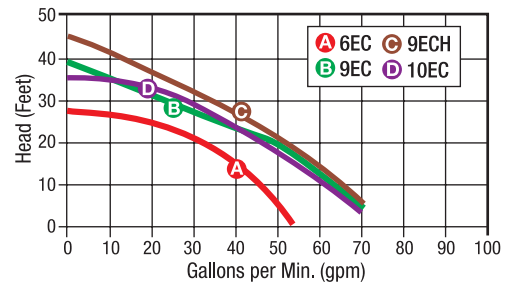

Little Giant® Submersible Effluent Pumps

- Continuous-duty use
- Multiple switch options for automatic operation

Use these powerful pumps in applications where light debris tends to accumulate—they won't clog like standard sump pumps. Choose from manual or automatic models. -SFS pumps have a factory preset snap-action float switch. -RF pumps feature a piggyback remote float switch; use for automatic or manual operation.

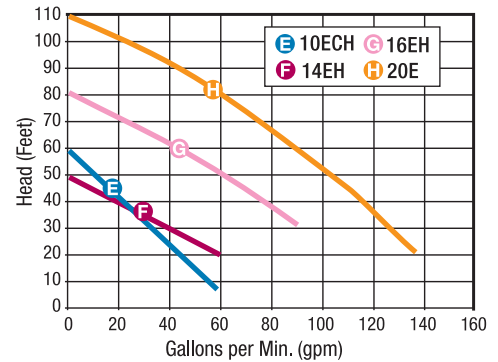

Pump type: submersible effluent
Solids handling: 3/4" (1/2" on 6EC and 10EC models)
Construction: epoxy-coated cast-iron motor housing and volute, nitrile elastomers
Impeller: 6EC & 10EC: nylon; 9EC(H) & 10ECH: TPE; 14EH & 16EH: cast iron; 20E: brass
Seal: single mechanical, carbon/ceramic
Motor: 1-phase, oil filled, thermal overload protection
Max liquid temp: 140°F
Cord: 20'L with 3-prong plug (10'L on stock # 58706; bare leads on stock # 66167)
