

NEW!

PosiWear® BA™ Microporous Disposable Coveralls

- Exceptional strength for easy donning
- Generously sized for a wide range of motion
- ASTM 1670 Compliant; NFPA 99 Antistatic

These disposable coveralls provide protection and a comfortable unrestricted fit. They feature PosiWear BA (Breathable Advantage) technology—a microporous material that guards against dry particulates, liquid sprays and splashes without sacrificing breathability.

Coveralls offer a full front zipper for protection in primary exposure areas and an elastic waistband for improved fit. Low lint and latex free. Ideal for maintenance and general cleanup.

KleenGuard® A70 Coveralls

- Great for basic chemical splash protection
- Durable and comfortable

KleenGuard A70 coveralls are an excellent lower-cost alternative for basic chemical splash protection. They are made from polyethylene-coated fabric that's resistant to many water-based liquids, greases and oils, and liquid chemical splashes. Coverall design is more durable than other garments in the market and has more chest room for comfort.

Applications include chemical handling, tank cleaning and biohazard cleanup. Yellow coveralls feature a zipper front, storm flap, elastic back, wrists, ankles, hood and boots. Sold by the case in the sizes shown below. Refer to KleenGuard sizing chart on facing page.

Tychem® TK Commander Level A Suits

- Fully encapsulated
- Chlorine safe
- Puncture- and tear-resistant material

Made from a high-strength non-woven fabric with non-halogenated film on either side, Tychem TK Commander Level A suits are specifically developed for protection against toxic corrosive gases, liquids and solid chemicals. Tested against more than 280 chemicals—more than 260 of these with no observed permeation after eight hours of continuous contact. Applications include hazardous materials/waste cleanup, emergency hazmat teams and chemical handling. Particularly good for use with chlorine.

High-visibility lime yellow fully encapsulated Level A Suit features double-taped seams, 3-layer face shield (PVC 40 mil/Teflon® 5 mil/PVC 20 mil), gas tight zipper closure, expanded back, rear entry, double storm flap, attached internal Barrier® gloves, attached outer butyl gloves, attached boots, outer boot flaps, knee wear pads, two exhaust valves and an internal adjustment belt.
