

SHOWA® Single-Use Gloves

Nitrile Gloves

N-DEX® Original, Plus, Hand-Specific and Medical Nitrile Gloves provide lots of feel despite their terrific strength. 4-mil gloves are often used in the lab, while the 6- and 8- mil are used on equipment. The 11" will extend up over a shirt cuff. Lightly powdered with non-talc vegetable powder for comfort and easy on-off. Powder-free version meets FDA standards.

N-DEX® 7705PFT Nitrile Gloves are the most hypoallergenic glove on the market! These nitrile gloves are highly puncture resistant. Textured fingertips give a better grip when working with smooth items like glassware.

NEW! **6110PF 100% Biodegradable Nitrile Gloves** have a smooth grip and a second-skin fit and feel for comfort and dexterity. Eco Best Technology® allows gloves to biodegrade once disposed of in a landfill.

N-DEX® 7700PST Nitrile Gloves are popular for clinical lab and critical environment applications. They feature textured fingertips for dexterity and grip, and come in a stylish stealth black color that helps disguise stains.

7500PF and 8500PF Nitrile Gloves provide great protection for all types of maintenance jobs. They offer superior snag and puncture resistance along with excellent flexibility. 7500 PF features Eco Best Technology, making the glove biodegrade once disposed of in a landfill.

Latex Gloves

SHOWA® W1005 Latex Examination Gloves are made from 100% natural rubber, so you get outstanding strength, wear and dexterity. They're cooler, more durable, better fitting, more sensitive and less susceptible to tears or holes than similar gauge vinyl gloves.
