Pick the pump that works for you and we'll turn it into a system—no assembly required!

PlantPRO™ Chemical Feed Skids

- Efficient panel- and skid-mounted configurations reduce space requirements
- Ready to install—no assembly required
- Specifically for water and wastewater applications

Ordering a chemical feed skid has never been easier. Browse through our selection of chemical feed pumps to find the pumps that best suit your application. Then, choose one of the standard skid configurations below. We install your pumps on the skid. All panels and skid bases are constructed of durable high-density polyethylene (HDPE). Choose systems with Viton® components for chlorine and general applications, or EPDM for use with caustic liquids.

PlantPRO Panel-Mounted Systems

These wall-mounted units are perfect for use with diaphragm and other small metering pumps with or without a multifunction valve. Choose from a single-pump panel or a double-pump panel (duty/standby configuration, single suction and single discharge). All piping is Schedule 80 PVC.

PlantPRO Skid-Mounted Systems

Our chemical feed skid systems are built on a low-profile 2½'W x 2'H skid. All skids are set up in a double-pump, duty/standby configuration. Skid configuration provides easy access to the pumps for maintenance and operation.

All systems include: 250 mL calibration column, back pressure valve, pressure gauge with PVC/PTFE seal, unpowered terminal enclosure for control signal termination, and duplex power receptacle (pump plugin) with weatherproof cover and 6'L power cord.

Note: Systems are hydrostatically tested prior to shipment.

WETTED MATERIALS	DIMENSIONS	STOCK #	EACH
SIMPLEX PANEL MOUNT (SINGLE-PUMP)			
PVC/Viton	18"W x 30"H	350921	\$
PVC/EPDM	18"W x 30"H	350922	
DUPLEX PANEL MOUNT (DOUBLE-PUMP)			
PVC/Viton	36"W x 30"H	350923	\$
PVC/EPDM	36"W x 30"H	350924	
DUPLEX LOW-PROFILE SKID MOUNT (DOUBLE-PUMP)			
PVC/Viton	36"W x 24"D x 30"H	350925	\$
PVC/EPDM	36"W x 24"D x 30"H	350926	

Double-Pump Skid 350923
(Order Pumps Separately)

Skid-Mounted System 350925
(Order Pumps Separately)

Single-Pump Skid 350921
(Order Pump Separately)

Complete your system!
