

RIDGID® Portable Water Jetters

- Clean drain lines without using harsh chemicals
- RIDGID quality and dependability

RIDGID portable water jetters propel highly flexible hose through drain lines—blasting through sludge and grease blockages. Activate the units' pulse action to easily negotiate difficult bends and traps. As you pull the hose back, it power scrubs the line, flushing debris away and restoring drain lines to their full, free-flowing capacity.

All jetters come equipped with high-quality pumps with corrosion-resistant, forged brass heads. They also feature a unique, two-wheeled cart that handles tight turns and fits easily through standard size doorways for easy access into tight spaces or indoor applications.

An optional Jet Vac is also available. Use it with these water jetters to quickly vacuum liquid and debris from flooded basements, sumps or construction sites at rates up to 60 gpm.

Shipping: All jetters ship motor freight.

KJ-1750 Jetter

KJ-2200 Jetter

KJ-3100 Jetter

KJ-1750 Jetter

- Jets 1 1/4 to 4" drain lines

The KJ-1750 jetter combines a 2-hp electric motor with a corrosion-resistant forged brass head duplex pump to produce flows of 1.4 gpm @ 1750 psi. It effectively cleans up to a 4" drain line. UL and CSA approved.

Includes: 1/2" x 110' jet hose on a H-30 cart, 1/8" x 50' sink trap hose, penetrating nozzle, propulsion nozzle, drop head nozzle and nylon storage bag.

Note: 2-hp 115V electric motor draws a max of 17 amps. Alternate voltages are available. Contact USABlueBook for more information.

KJ-2200 Jetter

- Jets 1 1/4 to 6" drain lines

The KJ-2200 jetter produces flows of 2.4 gpm @ 2200 psi, allowing cleaning of drain lines up to 6". The unit's 6.5-hp Honda recoil start engine features an ON/OFF switch, choke/throttle controls and an easily accessible oil fill and dip stick.

Includes: 1/2" x 110' jet hose on a H-30 cart, 1/4" x 75' trap hose, penetrating nozzle, propulsion nozzles and foot valve.

KJ-3100 Jetter

- Jets 2 to 10" drain lines

The KJ-3100 jetter produces flows of 5.5 gpm @ 3000 psi, easily powering through drain lines up to 10". Its 16-hp Briggs & Stratton recoil-start gasoline engine features an on/off switch, fuel shut-off, choke/throttle controls and an easily accessible oil fill and dip stick. The lightweight hose features a nylon braid that reduces weight and increases flexibility.

Includes: 3/8" x 200' jet hose, 3/8" x 50' washdown hose, root cutting nozzle, penetrating nozzle, propulsion nozzle, foot valve, wash wand and nozzle cleaning tool.
