General JM-1000 Mini-Jet™ Jeters

- 1.4 gpm @ 1500 psi of cleaning power for 1 1/2 to 3" lines
- Whole unit contained in a diamond plate tool box weighing just 23 lbs
- Automatic shut-off protects pump

Use these lightweight, compact jeters to clear grease, sand and ice from 1 1/2 to 3" lines. They come equipped with a powerful yet efficient motor and pump that drive the nozzle and hose through the line for wall-to-wall cleaning.

The pump delivers pulsing action that propels the hose around tight bends and through longer lines. A water sensor automatically shuts off the motor if the pump runs dry. Pump and motor assembly are contained in a rugged metal diamond-plate housing.

Includes: 1/8" x 30' Super-Flex™ hose, four-piece nozzle set (including penetrating nozzles with and without forward jet, flushing nozzle, and spring leader nozzle), water supply hose, shut-off valve, universal faucet adapter, threaded faucet adapter and rubber gloves.

Portable jetter offers fast and easy setup.

Motor:	1.2 hp, 13A w/ 3-wire GFCI
Pump:	triplex with pulse
Flow & pressure:	1.4 gpm @ 1500 psi
Hose reel capacity:	1/8" x 50'
Dimensions:	24"W x 11"H x 10.5"D
Weight:	23 lbs (without hose)
