

COLLECTION SYSTEMS Cable Machines

RIDGID® Sectional Machines

- Power easily through tough pipe build-up
- RIDGID quality and dependability
- Built-in integral ground fault interrupter grounds electrical system

Use RIDGID sectional machines for cleaning drain and sewer lines. These operator-friendly units use sectional-type cable and feature a quick-change coupling system for connecting tools easily.

Feed cable manually in and out of the machine in forward or reverse mode. The cable stops when you release the handle, maximizing your control. 115V electric-induction motors draw a max of 10.4 amps. Alternate voltages available. Contact USABlueBook for more information. Choose from three models. **Shipping:** Ships motor freight.

K-60SP Sectional Machines

- Cleans 1/4 to 4" drain and sewer lines

K-60SP sectional machines feature an adjustment knob for use with both 5/8" and 7/8" sectional cable.

Includes: 75' of 7/8" C-10 cable, A-8 cable carrier, A-1 mitt and a 7-piece tool set. **Tool set includes:** straight auger, funnel auger, retrieving auger, spade cutter, sharktooth cutter, pin key and toolbox.

K-1500B Sectional Machines

- Cleans 2 to 8" drain and sewer lines

K-1500B sectional machines offer increased horsepower over the K-60SP and clean longer distances—up to 300 feet!

Includes: 105' of 1 1/4" C-11 cable, (2) A-8 cable carriers, A-1 mitt and a 9-piece tool set. **Tool set includes:** straight auger, funnel auger, retrieving auger, spade cutter, sharktooth cutter, sawtooth cutter, two hex keys and toolbox.

K-1500SPB Sectional Machines

- Cleans 2 to 10" drain and sewer lines

K-1500SPB sectional machines feature a heavy-duty rotary switch which, combined with its additional horsepower, enables this unit to clean larger lines even more effectively.

Includes: 150' of 1 1/4" C-11 cable, (3) A-8 cable carriers, A-1 mitt and a 9-piece tool set. **Tool set includes:** straight auger, funnel auger, retrieving auger, spade cutter, sharktooth cutter, sawtooth cutter, two hex keys and toolbox.

RIDGID® Replacement Cables & Adapters

When buying replacement cable, be sure to get the same size cable for the adapter. For example, a 3/8" adapter won't work with a 5/16" cable. To switch from one size cable to another, buy an extra drum. It's easier to change a drum with the cable already in it than to take the cable out of a drum and reload it.

The C-4, C-6, C-8, C-31 and C-32 cables use the T-200 series of tools. C-44 cable uses the T-100 series of tools (see page 269).

Note: for use on roots, there are several cutters; they must be used with heavier C-44 cable.

MODEL #	DESCRIPTION	STOCK #	EACH
C-8	5/8" x 7 1/2' Sectional Cable	117150	\$
C-1	5/16" x 25' with Bulb Auger	117144	
C-2	5/16" x 25' with Drop Head Auger	117145	
C-4	3/8" x 25' with 5/8" Speed Coupler	117146	
C-5	3/8" x 35' with Bulb Auger	117147	
C-6	3/8" x 35' with 5/8" Speed Coupler	117148	
C-21	5/16" x 50' with Bulb Auger	120395	
C-22	5/16" x 50' with Drop Head Auger	120396	
C-31	3/8" x 50' Cable	113103	
C-32	3/8" x 75' Cable	113105
