

**Product SPOTLIGHT**

**Prevents root regrowth in pipelines for up to one year!**

Funnel applicator allows easier application.

*Environmentally safe!*

Before

After

**RootX® Pipeline Root Control**

- Kills roots in sanitary lines and speeds their decay
- End products are biodegradable

Environmentally safe RootX is the original foaming root control in an easy-to-apply powdered formulation. The active ingredient in RootX is the aquatic herbicide Dichlobenil that has been used for years to control aquatic weeds with minimal environmental impact.

Simply pour this product into the toilet or an outside sewer cleanout. The patented formulation foams on contact with water, filling the entire pipe to reach the top where 90% of pipeline root intrusion occurs. RootX contains surfactants and degreasing agents that strip away the grime on roots, allowing the readily absorbed Dichlobenil to penetrate the root ends.

**Seamless Aluminum Skimming Net Poles**

- Telescoping and fixed

Telescoping styles have beefy chuck locks, designed for long life under extreme conditions. Handle has a very nice rubber golf club-type grip so you won't drop the whole thing in the plant. Pool-style connectors.

Detail of pool-style connector

6'	Fixed	24948*	
6 to 12'	2-pc Adjustable	88488*	
8 to 16'	2-pc Adjustable	88489*	
5 to 15 1/2'	3-pc Adjustable	88490*	

\* Shipping: Additional handling fees apply.

**Fiberglass Skimming Net Poles**

These poles are very strong and long lasting. These flex more than aluminum, so they are not suggested for trying to lift heavy objects such as a net full of grease. They are really great if you have nearby electric lines that you worry someone may hit by accident. Built with pool-style connectors. **Ships UPS 3-day select or motor freight.**

LENGTH	STYLE	STOCK #	EACH
8 to 16'	2-pc Adjustable	24946	\$

**Heavy-duty**

**Manhole Grease Scraper Attachment**

- 5 1/2" wide
- Stainless steel blade

Designed for scraping grease from the inside walls of lift stations, this 5 1/2" wide blade is curved for even surface contact. Has adapter that fits heavy-duty aluminum poles listed above. Remember that this attachment, when used with the aluminum pole, is for scraping grease, not chipping concrete or ice.

DESCRIPTION	STOCK #	EACH
5 1/2" Scraper	25000	\$

Use with the skimming net poles above.
