## USA BlueBook Jumbo Melt Blown Filter Cartridges

- 100% polypropylene—excellent chemical compatibility
- High dirt-holding capacity—reduces sediment, dirt and rust particles
- Comply with FDA requirements for food contact per CFR Title 21

Use these cartridges for efficient economical filtration. They feature 100% polypropylene construction, with no glues or additives. Maximum temperature: 140°F.

For use with: jumbo filter housings; see page 374.

## Watts® Melt Blown Filter Cartridges

- Low cost with high dirt holding capacity
- Excellent chemical resistance

Melt blown cartridges are ideal for general filtration applications and are commonly used for reverse osmosis pre-filtration. The special polypropylene construction provides maximum filter life while eliminating media migration, channeling and unloading.

Clear Standard Housing 90662

Blue Standard Housing 90661

High-Temperature Housing 90684

## Plastic Filter Housings

**NEW!**

- Housings for a variety of applications
- Models with pressure relief button reduce mess during cartridge change
- Choose from standard, high-flow and high-temperature filter housings

These durable housings are available in a variety of styles for different applications. Blue sump housings are constructed of durable polypropylene. Clear polycarbonate sump housings let you see the condition of the filter cartridge. Red sump housings are constructed of glass-reinforced nylon with a Viton® O-ring. They are ideal for high temperatures up to 165°F—an economical alternative to stainless steel housings.

Choose from housings for 2<sup>1</sup>/<sub>2</sub>" or 4<sup>1</sup>/<sub>2</sub>" OD filter cartridges; 4<sup>1</sup>/<sub>2</sub>" OD models are for high-flow applications. Select models with pressure relief button make cartridge changes neater and easier.
