Steel & Aluminum Hose Hangers

- Hold up to 100 feet of 5/8" hose
- Keyhole design allows easy installation

These hangers hold up to 100 feet of 5/8" hose. Their keyhole design makes installation simple, and dismantling them even easier. Many people take them off the wall and store them during the off season. Choose from a steel model with baked-enamel finish or an all-aluminum model that's completely rustproof.

Hose Bibb Locks

- Prevents unauthorized use of water from unmanned facilities
- Discourages vandalism

Uses a standard padlock (not included). All accessible components rotate independently of each other, making it impossible to remove the locking device without first removing the padlock. Exposed parts are made of hardened zinc-plated steel. Internal hose thread fitting is brass with EDPM seal. Measures 1 7/16" OD x 1 3/8" L, and sized for 3/32" padlock shackle.
