

UPS Pack PVC Schedule 80 Pipe

- Total of 10 feet; ships UPS
- Great for small chemical feed hookups

If you don't need a full 10-ft uncut stick of pipe or don't mind using an extra coupling, we can supply a 10-ft length of pipe cut into two 5-ft pieces that can be shipped UPS with your Schedule 80 fittings.

Shipping: Additional handling fees apply. Quantities of 3+ of the 3" and 4" sizes ship motor freight.

Transparent Schedule 40 PVC Pipe & Couplings

- For visual check of flow or level

Use for monitoring clarity in Schedule 40 PVC lines such as filter backwash or for viewing level outside of tall tanks. Pipe is sold in packs of two 5-ft lengths for a total of 10 feet. Use standard Schedule 40 or 80 fittings or the clear PVC couplings shown below for installation.

Note: If you require a length longer than 10 feet, call for information.

Shipping: Additional handling fees apply to pipe sections.

SharkBite® Fittings for PVC Pipe

- Easily connect PVC pipe to other pipe materials
- No solder, glue, unions or clamps needed

SharkBite PVC fittings make it easy to connect Schedule 40, 80 and 120 PVC pipe to copper, PEX, CPVC or PE-RT pipe. When you insert pipe, stainless steel teeth in the fittings bite down and grip tight, while an EPDM O-ring compresses to create a secure seal. No solder, clamps, unions or glue needed! All fittings feature DZR lead-free brass construction.
