

TOOLS Curb Box Keys & Valve Keys

Curb and Valve Box Keys with Removable Handles

- Easy to store
- Removable handles save on shipping fees

Save on shipping and handling fees—these professional-grade keys feature a sturdy removable handle. Choose from valve keys with either solid or swivel ends, or curb box keys with either 1/2" or 5/8" round heads.

Telescoping Curb Box Wrenches

- For curb boxes 2"ID and up
- Choose from two telescoping models

A great design when you need a long wrench but do not have room in your vehicle to carry it. There are no holes to line up or pins to insert. A spring-loaded roller ball provides constant friction on the inner square tubing to keep the shaft length in the position you desire. There is an internal stop to prevent the inner shaft from coming out of the outer pipe assembly. Slot measures 5/8"W x 1 1/4"L x 3/4"D. Handle is 18".

Shipping: Additional handling fees apply. Quantities of 6+ ship motor freight.

LENGTH	STOCK #	EACH
4 to 8'	350279	\$
6 to 10'	350280
