

# Hayward® PVC Butterfly Valves

*Great where corrosion is a concern*

- Choose from manual or actuated models

Hayward PVC butterfly valves feature PVC construction with stainless steel shafts. They're great for water service, but also handle abrasive or slurry-type fluids. Choose from manual models with EPDM seals, or actuated models with EPDM, Viton® or FPM seals.

Other seals, operators, actuation options and voltages are available; contact USABlueBook for more information.

**Shipping:** Actuated valves 10" and larger ship motor freight.

**NEW models!**

**Valve construction:** PVC  
**Seal and seat:** EPDM, Viton or FPM  
**Disc:** PVC  
**Actuators:** HRSN series: 120 VAC, 60 Hz; NEMA 4/4X enclosure  
 ECP series: 24V AC/DC; NEMA 4/4X enclosure  
**Max psi rating:** 150 psi  
**Temperature:** 120°F  
**Applications:** on/off service for fluids  
**Connections:** wafer

Manual Valve w/ Handwheel (10" and 12" models)

Manual Valve w/ Lever Handle (2 to 8" models)

## A Manual Valves

- Available with lever or gear operators

Manual valves up to 8" feature lever handles with 19 lockable stop positions. 10" and 12" feature gear operators with handwheels.

## B Actuated Valves with HRSN Actuators

- NEMA 4/4X rated enclosures

HRSN actuators feature a position indicator and two auxiliary limit switches. 6" and larger models also have a manual override shaft.

## C Actuated Valves with ECP Actuators

- NEMA 4/4X rated enclosures

ECP actuators feature a position indicator, four auxiliary limit switches, and GFPP (glass filled polypropylene) housing that provides superior corrosion resistance and performance in environments where most metal actuators cannot.
