

LOCATING & LEAK DETECTION Magnetic Locators & Metal Detectors

Magna-Trak® 100-Series Magnetic Locators

- Probe waterproof up to housing; water-resistant housing
- 5-year warranty

The Magna-Trak 100 series locators feature a waterproof 20" long aluminum probe. They operate for about 100 hours of intermittent use on six AA batteries.

Magna-Trak 101 Locator

Our most economical model! The Magna-Trak 101 features a powerful speaker with volume control that provides an audio response. Sensitivity control gives a full range of depth capabilities. Audio indication only (no display).

Tuning knobs offer fine-tune sensitivity control.

Magna-Trak 100 Locator

Magna-Trak 100 has the same features as Magna-Trak 101, plus a display that helps identify the target even in noisy conditions where the audio tone may be difficult to hear. The numeric digital bar graph LCD displays peaks over object and features a low battery indicator.

Magna-Trak 100 and 102 have a digital display.

Magna-Trak 102 Locator

The top-of-the-line Magna-Trak 102 has the same features as Magna-Trak 100, plus a push-button "erase" feature and power line indicator for greater flexibility and enhanced performance.

When a disturbance such as a metal fence is confronted, simply press the "erase" button and it is electronically erased for continued searching without interference. There's no need to reduce the sensitivity; the Magna-Trak 102 always returns to perfect magnetic balance when the "erase" button is pressed.

The Magna-Trak 102 also has a power line indicator that indicates the presence of power lines during a normal magnetic search. (This feature is an aid only and is not intended for locating buried power lines.)

Includes: a soft carrying case and six AA batteries. 5-year warranty.

Easy one-hand operation!

Magna-Trak® 200-Series Magnetic Locators

- Touch pad design with one-handed operation
- Power line indicator signals presence of live power
- 5-year warranty

The Magna-Trak 200-series ferromagnetic locators are durable and reliable. Choose from the Magna-Trak 200 or 202. They each have a large 2 1/4"W x 2"H LCD display that provides a digital readout and bar graph. The display indicates signal strength, battery power and sensitivity settings.

The power line indicator flashes and gives a distinct audible signal to let you know the presence of live electric power. (This feature is an aid only and is not intended for locating buried power lines.)

The rugged touch pad controls provide one-handed operation with full sensitivity and volume adjustment. An ergonomic handle with textured grip, along with a total weight of only 3 lbs, allow for less fatigue while locating. The locator is waterproof up to the housing and the housing is water-resistant.

Magna-Trak 200 Locator

The Magna-Trak 200 offers convenient one-handed operation at an economical price.

Magna-Trak 202 Locator

The Magna-Trak 202 also has a useful "erase" function which lets you block out magnetic interference such as fences, cars and transformers. There's no need to reduce the sensitivity; the Magna-Trak 202 always returns to perfect magnetic balance when the "erase" button is pressed.

Includes: a soft carrying case and six AA batteries. 5-year warranty.
